

Year of the Rat

Directions, Challenges & Solutions

PLEASE listen to “A Fresh Start” first before you implement the tools from the recordings and these written pages. The recording is filled with more ideas to help clear out old energies than I have given in previous recordings. Although it was originally recorded to use before the Chinese New Year, it is even more important to follow these steps to clear the negative energy caused by the pandemic and global issues we are facing this year.

1) **NORTHEAST – Star of Relationship** – Prosperity and Professional Good Fortune

Place METAL in this area to boost Good Fortune

Modern Cures (You only need to **add** ONE of these to the area. More is not necessary, but okay if you want): Any money enhancers will help you hold on to money that comes in. Items that are SOLID METAL are great. Another possibility, use a “piggy bank” because it is a true way of SAVING money.

Using blue, dark colors or heavy patterns stimulate the Water element. I put up a dark blue curtain to block the light in order to do Zoom events in order to stop the glare from a window. It has worked extremely well.

Avoid adding Wood Element - Greens, rectangles, round posts or poles in vertical position.

If your bedroom is in this area, place a Brass Wu Lu or other round metal beside the bed.

Traditional Cures or Enhancers: 12-Coin Ball, Brass Ingot, Gold Arowana Fish, Bejeweled Dragon-headed Tortoise,
